ABOUT

GJ MENTAL HEALTH is a specialized outpatient clinic focused on promoting mental health, psychological well-being, diagnostics, treatment, and guidance for children, adolescents, adults, and organizations. The practice combines scientifically grounded methods with a personal, client-centered approach, paying attention to the psychological, cognitive, social, and behavioral factors that influence an individual's functioning. The main services offered by the clinic are:
Psychological Diagnostics and Assessment.
GJ MENTAL HEALTH conducts extensive psychological and neuropsychological examinations to gain insight into cognitive functions, personality traits, emotional functioning, and behavioral patterns. These examinations can be used for, among others: ADHD and attention-related issues, Autism Spectrum Disorders (ASD), learning and developmental problems, memory and concentration complaints, depressive complaints, anxiety disorders, burnout and stress-related problems, personality issues, and neurocognitive conditions. The results are compiled into professional reports that can be used for treatment, education, work-related matters, or medical referrals.
Neuropsychological Examinations. The clinic offers specialized neuropsychological diagnostics aimed at mapping cognitive functions such as memory, attention, executive functions, language processing, and information processing. These examinations are relevant for, among others: brain injury, neurological conditions, cognitive decline, concentration problems, prolonged stress and burnout, medical and psychiatric issues, Individual Psychological Treatment and Therapy.
GJ MENTAL HEALTH also offers evidence-based treatments for a wide range of psychological and emotional complaints.
