TRAINING VOCATIONAL

Leduc Business Academy NV

Female-led

ABOUT

1. Training and Education. Leduc provides practice-oriented training and short courses in the fields of entrepreneurship, project management, financial education, leadership, communication, green entrepreneurship, and business skills. The training combines theory with interactive assignments and practical application.
2. Coaching and Mentoring. Within this business unit, Leduc offers individual and group coaching for entrepreneurs, startups, and professionals. The guidance focuses on personal development, business growth, leadership, mindset, structure development, and entrepreneurial skills.
3. Business Development. Leduc supports organizations and entrepreneurs with business development, project development, proposal writing, export readiness, strategic planning, and the development of sustainable business models and growth strategies.
