Valcon X

ABOUT

We are pleased to introduce our ValconX GPS & Fleet Management System – professional software that makes your fleet management more efficient, safer, and more transparent. Our best-selling 4G-ready GPS tracker: Price: $150 including installation. Subscription: $15 per vehicle per month (Suriname & Guyana). Key features of the platform: Live vehicle tracking – always insight into your fleet. Fleet maintenance scheduling – maintenance planning with automatic alerts. History & reporting – 1 year of trace history and on-demand reports. Points of interest import – customer locations easily imported via Excel. Activity log – who logged in, when, and from which IP address. Alerts via email or push notifications for: speeding violations, battery disconnection, entering and leaving specific locations. Reports on request and scheduled: trips & stops, geofence visits & events, engine hours & speeding violations, ...and much more.
