BUSINESS STRATEGY CONSULTANTS

ActionINVEST Caribbean Inc.

Female-led

ABOUT

ActionINVEST Caribbean provides business coaching, advisory, training, and business development services that help entrepreneurs and companies in Suriname strengthen performance, improve systems, and prepare for sustainable growth. The Suriname office is supported by the regional experience and technical capacity of ActionInvest Caribbean's Guyana operations, while remaining focused on the specific needs and opportunities of the Surinamese market.

Our most important services include:

1. Business Coaching and Advisory Services. We provide structured business coaching for entrepreneurs, business owners, executives, and management teams. This includes support with strategy, goal setting, leadership, sales growth, profitability, team accountability, operational systems, and execution discipline.
2. SME Development and Capacity Building. We help small and medium-sized businesses strengthen their business models, formalize operations, improve competitiveness, and prepare for growth. This is especially useful for companies seeking to access larger supply chains, financing, procurement opportunities, or new markets.
3. Business Training and Skills Development. We deliver practical training in leadership, sales, customer service, communication, productivity, financial literacy, entrepreneurship, and business systems. Our training is interactive, results-oriented, and designed for immediate application in the workplace.
4. Investment Readiness and Access-to-Finance Support. We support businesses in becoming more bankable and investment-ready through business diagnostics, business plans, financial projections, pitch preparation, governance improvement, and financing-readiness support.
5. Governance, Systems, and Operational Improvement. We help companies improve internal structure, clarify roles, document processes, create KPIs, improve meeting rhythms, and build accountability systems so they can operate less dependently on the owner and more consistently.
