TRAINING VOCATIONAL

Safety and Security Academy Suriname (SSAS)

Female-led

ABOUT

The Safety & Security Academy Suriname (SSAS) brings a broad and specialized portfolio of products and services to the market, divided into seven core areas. These services are aimed at both individual professionals and companies within various sectors (such as construction, oil & gas, mining and government).

1. Safety. Within this domain, SSAS focuses on ensuring workplace safety and compliance with the highest industry standards. Training courses include: Occupational Safety Training: aimed at preventing workplace hazards and risk management. Confined Space Training: safety training for entering, working in and exiting confined spaces. Company Emergency Response (BHV): training for emergency situations and company emergency response within organizations.
2. Security. SSAS provides expert advice and training for security professionals and organizations: Security Training: both basic and advanced courses for security personnel. Security Management: risk assessments and the strategic management of physical security.
3. Mobile Equipment. Certified operational training for the safe operation of heavy machinery and industrial equipment in accordance with laws and regulations: Operator Training: for forklifts, cranes, heavy equipment and specific skills such as rigging & signaling (attaching and guiding loads). Specific Skills Training: such as Chain Saw Training and ATV training.
4. Extraordinary Police Officer (BAVP). Since July 1, 2021, SSAS has been officially authorized to provide training for Extraordinary Police Officer (Buitengewoon Agent van Politie, BAVP). This is carried out under the auspices of the Ministry of Justice and Police, the Suriname Police Corps (KPS) and the Public Prosecutor's Office. The training prepares candidates for law enforcement and supporting roles.
